The gold-standard men to-night seem to be quite confident that Hill will be accepted by the silver men for temporary chairman, the argument they use being that the many silver Senators, who will be so prominent in the convention, and who are at the head of the silver moveent, will not want to turn down a fellow-Senator. But so far it is only a surmise on the part of the gold-standard men who

are now on the ground. A counterfeit presentment of President Grover Cleveland partially hides the large mirror before which the dusky, but attractive, Queen Liliuokalani performed her morning toilet while in Chicago. The smiling face of Roswell P. Flower in crayon looks down from the top of the dresser, and the royal coat of arms on the high mahogany bed was hidden to-night by an immense placard announcing that on Saturday night there will be a mass meeting of "sound-money advocates." It is to be used as headquarters for the New York Democrats, and is the same room occupied by the New Yorkers in 1888, when Cleveland was nominated. DICKERING WITH BOIES.

Rumor that the Gold Men Are Scheming for Support. CHICAGO, July 2.-The approach of the

Eastern gold-standard men seems to-night

to give consideration to rumors that would

otherwise be set down as ridiculous, and

yet there is to be taken into consideration a fact that seems to weigh with the silver leaders, that Senator David B. Hill, ex-Secretary William C. Whitney, ex-Gov. sell, William F. Harrity and Senator Smith form a political combination that for shrewdness and knowledge of the way of managing a seemingly lost cause can not be excelled. It was perhaps because of lack of knowledge of the absolute plans of these politicians that some credence was given early this afternoon to a rumor that e Easterners had selected the Boies boom and its supporters as a means of combine to effect the downfall of the absolute silver men. Instead of losing cast at the denials of the Boies people, it gained strength. It was to the effect that the Easterners had sent commissioners into the Boles camp with offers of assistance to that candidate if, in return, the Boies people would modify, in some way, the inancial plank so that, while declaring

They say that they never expected any support from the East for their candidate, and that the rumor was started by the friends of other candidates for the ourpose of bursting the Boies boom. They further assert that their candidate is just as good a sliver candidate as any other mentiored, and they know for a fact that were he to get a full gold-standard vote from the East he would nevertheless be true to the silver plank in the platform. There are no Easterners here at present to either deny or affirm the story, with the exception of Chairman Harrity, who

MISSIONARY WORK. Gold Standard Leaders Have a Plan

for Making Converts. CHICAGO, July 2 .- The announcement that the Eastern gold-standard leaders, William C. Whitney, Senator Hill and others, would arrive to-morrow has put some heart into the gold-standard men who are here, and the argument in hotel corridors waxed a little warmer. The rumor of a withdrawal of the gold-standard forces from the convention if they are defeated is still current, but it cannot be definitely placed in the so-far arranged plans of the gold-standard people. The plan arranged is, at least, calculated to make things lively, even if it has not the greater effectthe one the gold-standard men desire-of obtaining converts. It will be similar to the plan adopted by the New York Democrats during the days preceding the convention of 1892 when in the same halls the orators foretold the destruction of the Democracy if President Cleveland was renominated. The plan is to have Senator Hill, Mr. Whitney, ex-Mayor Grant, John R. Fellows, Senator Smith, of New Jersey, ex-Governor Russell, of Massachusets. other well-known orators discuss the situation with not only the leaders of the gold-standard movement from other States. but with the leaders of the silver movement. If these discussions, like the Hill and Cleveland discussions of 1892, are to he made public, the result can hardly be foretold, for the silver element here now in such preponderance is of an excitable character. A conference of the gold-standard men is called for at 8 o'clock to-morrow night at the Auditorium, and it is be-Heved that a line of action will be mapped out at that time. The statement that Wilson S. Bissell, of Buffalo, would act as delgate at large in place of United States Senator Murphy in the New York delegae is believed here to be erroneous. Turple Says Matthews Doesn't Want

the Vice Presidency. CHICAGO, July 2 .- Governor Matthews, of Indiana, is not a candidate for the vice presidency, and will not allow his name to be considered for second place on the ticket. The vice presidential rumors were discussed, and it was deemed comes from outside States, where there is advisable to have Senator Turple make a formal statement of the attitude of the Indiana candidate. Mr. Turpie's statement is and this sort of talk is having its effect

"The candidacy of Governor Matthews to-day has developed a very considerable and unexpected strength. He is likely to secome the center of support by all conservative men who are in sympathy with the doctrine of the restoration of silver to free coinage, and with the other principles of the Democratic party, as declared in former platforms, and which will be reaffirmed in this. The delegation from Indiana desires it to be stated in the most positive terms that Governor Matthews is not a candidate for the vice presidency. and that he will not allow his name to be considered for that position. These declarations are made for the purpose of preventing misconstruction or unauthorized rumors and reports that Governor Matthews, under certain circumstances, would be a candidate for vice president. He is a candidate for the presidency, and for no

other position.' Aside from this formal statement, the Indiana delegates express much confidence that geographical as well as political considerations will steadily advance the interests of their candidate. The delegation is under positive instructions to vote for him 'first, last and all the time." While the great majority of the delegation are for silver, three are counted for gold, but, under the instructions of the State conven-tion, to vote as a unit on platform and candidates, the delegation is united for Governor Matthews, and equally united. It is said, for silver. Senator Turple will make the speech placing the name of Governor Matthews in nomination before the

SENATOR STEWART'S VIEWS. He Thinks the Platform Will Be Ac-

ceptable to Silver Republicans. CHICAGO, July 2 .- Hon. W. M. Stewart, the Nevada Senator, is in the city taking notes on the progress of affairs in connection with the Democratic convention. He is supposed to be here in Senator Teller's interests, but he declines to say explicitly what his mission is beyond that of making observations. On being asked for an interview, he said: "I have asked several Democrats whether, if the Democrats should adopt a gold-standard platform and if the Republicans had adopted a free-coinage platform and nominated McKinley, Lodge, Reed and that class of faithful Republicans they would vote the Republican ticket because of the silver declaration. Everyone to whom the question has been put has said in reply that he would not. Still they seem to think that silver Republicans ought to vote the Democratic ticket provided the Democrats adopt a free-coinage platform. They appear to ignore the vulgar old saying that what is sauce for the goose is sauce for the gander. However, so far as I have seen, the majority of this Democratic gathering is more patriotic than the majority has been in any other national convention for twenty years. They seem really anxious to take such accause, and I am inclined to think they will make it possible for the Populists and silver Republicans to vote for their nomines without going into the Democratic party for that purpose. If they do not, I fear there will be two silver candidates in the field to divide the silver vote and give the fory Hessians another victory Senator Stewart declined to say whom he expected to be nominated or to give in detail any of his reasons for hoping that the nominee will be other than a Demo-He says he will remain in Chicago

while the State has always gone Republican, Pennoyer, as a Democratic candidate for Governor, has always carried it. His latest success was in being elected Mayor of Portland in a very hotly contested election. He is also given the credit of being a very strong State's rights man. At present Mullinix and Welch are confining themselves to working upon the Western delegates as they arrive and are well satisfied with their success. They say that in case the Democrats should nominate Pennoyer, there would not be the least question as to his being indorsed by the Populists and silver men. They say that the idea of a Pacific coast candidate is popular, and that in going West distance should not count, if Teller is to be considered a possibility. Pennoyer has always been elected as a Democrat, but he repudiated the party as represented by Cleveland and was inclined o cast his lot with the Populists of Ore-

He will, they say, have from the beginning not only the support of his own entire delegation, but also the ause him to grow on the convention from the beginning and claim for him that his selection would make Ohio, Indiana and Illinois surely Democratic at the polls.
It is claimed by Mr. McLean's friends that the Eastern vote will go to him rather than to any other man because of the con-fidence the Eastern men feel in his business capacity. Salvation Army Robbed. Special to the Indianapolis Journal. RENSSELAER, Ind., July 2.-The Salvation Army closed a three weeks' jubilee at this place this week. There were about thirty in the band, composed of twentyfive men and five women. Their operations were carried on in a large tent, to which they charged admission, varying from 5 to 15 cents. Their usual modus operandi was varied by presenting different dramas to the country people and the meeting was realized quite a sum of money from their meetings, but during the meeting Saturday evening the officers' tent was entered and their money, to the amount of \$150, was stolen. Miss Kate Rodgers, a teacher in the public schools at this place, has abandoned her profession and taken up with the army. She will go to Chicago at once and begin active duties.

Proposed Gas-Belt Celebration. Special to the Indianapolis Journal. ANDERSON, Ind., July 2 .- A movement was put on foot to-day in Anderson to celebrate the tenth anniversary of the discovery of natural gas in Indiana. The first well drilled in was that in Eaton on the morning of Sept. 16, 1886. It is the intention to interest the entire Indiana natural gas belt and hold a monster demonstration and display in some one of the gas-belt cities, Muncie, Anderson, Elwood, Marion or Anderson being preferred. The committee will visit all the cities mentioned and discuss the plan. The celebration would bring thousands of strangers to the State who have heard of the great fuel. The products of the factories would be dis-played, speeches made and the whole conclude with a parade and display of natural gas in the evening.

At the recent big union labor demonstration of Indiana gasbelt glass workers the Ministerial Association remonstrated against desecration of the Sabbath with such meetings. Rev. Carney made the invocation and had a seat upon the speakers' stand, and some members of his dock objected.

The men commenced slugging from the start, and the police interfered on the ground that a license had been issued for a boxing match, and not a slugging contest. Later.-The fight was declared a draw before the police interfered. Kansas City Journal.

Chicago is infested with footpads, the most active and daring being two professionals known as "the tall man" and "the short man." Kansas City had a prolonged experience of the same sort some time ago, its star performers being familiarly known as "the long man" and "the short man." Like the Chicago police, our policemen were unable to do anything with the pair, until finally an officer came in from a neighboring town and ran them down. We advise Chicago to send out into the country for a village marshal and end its reign of

A VIRGINIA-AVENUE FIRE.

It Was Just Below Washington Street and Was Hard to Fight.

At 2 o'clock this morning fire broke out in the basement of R. S. Parsley's saloon, at 29 Virginia avenue. The alarm was turned in by W. H. (Goose) Eden and in a short time several companies of firemen were at work on what looked as if it might be a serious conflagration. Smoke was pouring from the building in a dense mass and the barroom on the first floor was so full of smoke that no fireman could remain in it long enough to carry a line of hose to the stairway, which was in the extreme rear of the room. In a short time the flames broke through the rear of the build-

"BILLEE TAYLOR."

Only Two More Performances Before Wildwood Closes.

Only the desire to flatter the leading tenor can be surmised as the reason Solomon had for naming the opera given at Wildwood last night "Billee Taylor." With Edward P. Temple in the role of Ben Barnacle all the other parts dwindled into second-rate characters. As the happy-golucky and dare-devil Ben, Temple showed what he can do in a broadly low comedy part. George Lyding is particularly pleasing in a speaking part, almost as good as he is in his songs. His tete-a-tete with Phoebe was well handled and he seldom made an exit without receiving applause.
